To Whom It May Concern:

The Building Committee and the Elders of the Tamarack Road Church of Christ would like to commend Dave Franklin for the outstanding job he did on our new church building.

When our church building burned on Thomas Street, we watched with sadness as it was destroyed before our eyes. Our church family was apprehensive about how we would rebuild. Committees were established and prayers were sent up asking God to lead us to make the correct decisions and to help us remember that the church did not burn, only the building. God blessed us with a wonderful location and then in addition we were blessed with the appearance of Dave Franklin. He was able to ease our concerns about the whole process. He stayed on top of the sub-contractors and made sure that they fulfilled their obligations in a timely manner. Because of his tenacity, we have a beautiful new building that only took a few months to complete. He was always helpful, friendly, and open to suggestions. If Dave had not been on top of things, our building would still not be complete. Because of his management, the whole project came in under budget giving us a substantial savings.

Dave is truly an asset to your company and a blessing to us.

In Christ's Service,

Elders:

Re: David Franklin

It has been a privilege to work the past seven months with Dave Franklin. In the last two years I have been the Chairman of the building committee for the Tamarack Road Church of Christ. I have spent many hours with him.

Dave is a very experienced, well trained, and dedicated project manager. He has represented our interests and goals to the highest degree. He is also very organized, mannerly, and a very moral person. He is one that is very in tuned to value. In today's world of construction this is very valuable. He is also married to a very lovely lady, Mary Franklin.

Please understand that these words are coming from a general contractor for 25 years and bonded for 23 years. I also have a degree in architecture from The University of Oklahoma.

I would recommend Dave for any management or construction duties except trapping snakes.

Sincerely,
